EXPANDING RESEARCH AND DEVELOPMENT ECOSYSTEM IN SOUTH-WEST FINLAND, CASE PLATFORM FOR WATER EXPERTISE

CLEANTECH: WATER EXPERTISE

In 2012, water industry was identified as a future growth industry in South-West Finland.

Since then the reasearch organisations, the industry and the public sector have been working together in order to make use of the growth potential.

Platform for Water Expertise was founded in 2015.

PLATFORM FOR WATER EXPERTISE

+ Intercity Collaboration of South-West Coast of Finland

Platform for Water Expertise is an active network of universities, companies and business development agencies from South-West Coast of Finland. Purpose of the network is to bring together actors willing to find new sustainable growth from water.

TURNING WATER INTO OPPORTUNITIES

Our companies and universities cover diverse areas of water expertise:

- ✓ analytics,
- ✓ processes,
- ✓ environment,
- ✓ technology and
- ✓ management.
